STATE & COMMUNITY ENERGY PROGRAMS

**I'm pretty excited
about my new
heat pump water
heater!**

Let's build more **together**.

To do this, we must continue to consider...

WHERE HAVE WE BEEN?

WHERE ARE WE NOW?

WHERE DO WE WANT TO GO?

Then and Now Where We Are Together

THEN

Program guidance published

TA: Sample applications developed

Relationships being built

NOW

Multiple Guidance Updates

- Last piece of guidance coming out: Market Transformation

Assistance for robust application development and quicker submittals

- Final Cohorts coming
- Topical TA group engagement (e.g., Retail & Weatherization Assistance Program)

Actively collaborating

- Moving applications to award readiness
- Working together on risk mitigation tools and resources

DOE's 2025 Focus

DOE is focused on parallel goals and want to **meet states where they are**, sharing lessons learned on the way.

We're Working Toward a Vision Together

We are in this program as a **partnership** to create collective impact and sustainably transform the market.

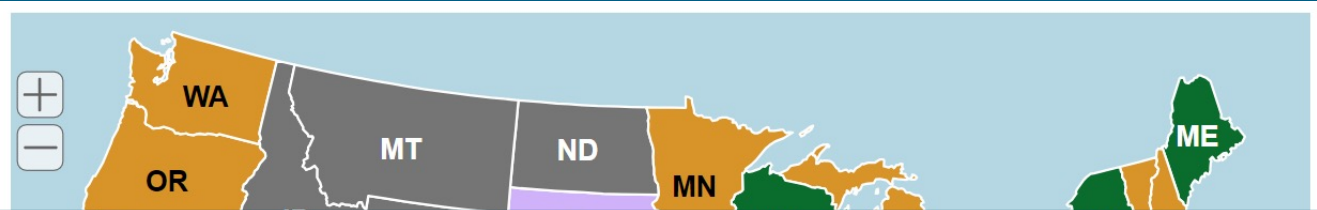

- Minimize fraud, waste, and abuse
- Protect consumers
- Look for continuous improvements
- Share stories and experiences

We've Come Far Already!

State Progress to Launching Rebates

Almost \$2.7B awarded
Almost \$1.5B in the award pipeline

Legend: ■ Not Participating ■ Preparing Applications ■ Application Submitted ■ Application Approved ■ Rebates Available

Last Updated on September 30, 2024

What Will Our Legacy Be?

Market transformation can be our legacy.

Let's grab this opportunity to create **lasting impact** for Americans.

Let's build more **together**.

Next Steps

There are many ways to stay connected

- Project officers should always be first point of communication.
- DOE's Home Energy Rebates team here this week.
- Visit the SCEP website for updates on resources and events.

Thank You!
